Work Experience

Maker

MakerSquare - Austin, TX
June 2013 to Present

- Student in accelerated 10 week web development bootcamp.

- Developed knowledge of Ruby on Rails, HTML/CSS, Javascript and JQuery to create database-driven web apps.

- Utilized collaboration and project management tools with Git and Github.

- Integrated APIs into apps, including Facebook and Twitter authorization, Google Maps, etc.

- Introduced to Test Driven Development (TTD) using RSpec, agile development, and more.

PROJECTS

Blocktalk http://blocktalk.io   source**:** https://github.com/a7levine/blocktalk.git

- jQuery intensive web app, designed to allow two individuals to easily and quickly schedule a time to meet.

- Utilizes JQuery, JQuery UI, Moment.js, RoR, iCalendar.

NoobNoos http://n00bn00s.herokuapp.com   source: https://github.com/sdrioux/noobnoos.git

- App designed to be a repository of coding resources for users at MakerSquare, and other similar programs.

- Utilizes JQuery, Webthumb API, Devise, Solr Sunspot Search.

SQL Analyst

Deloitte - Austin, TX
March 2012 to June 2013

- Performed analysis and presented results using SQL, SSIS, MS Access, Excel, and VB scripts.

- Wrote complex SQL queries using complex joins, grouping, aggregation, nested subqueries, cursors, etc.

- Imported, exported and manipulated large data sets in multi-million-row databases under tight deadlines.

- Improve upon existing tools and scripts to increase departmental efficiency and automate repeatable tasks.

- Manipulated files and their associated data for rapid delivery to clients or loading onto internal databases.

- Collaborated with project managers, legal counsel, and other team members to gather data for projects.
